

ASSEMBLY KILLS THE SHERIFFS BILL

These Officials Must Con-
tinue to Be Content
with One Term.

CHANGE IN ELECTION

State Superintendent of Schools
To Be Elected in the
Spring Hereafter.

ASSEMBLY DISTRICTS MADE

Madison, Wis., March 7.—In his prayer in the assembly this morning the officiating chaplain, Rev. H. T. Comstock of the Baptist church, incorporated a plea for the passage of the anti-cigarette bill by the senate and returned thanks that the assembly had seen fit to pass this bill.

Among the bills reported for indefinite postponement by the assembly judiciary committee was the one forbidding the marriage of divorced persons within a year.

The senate adopted the constitutional amendment providing for the election of the state superintendent of public instruction in the spring, at the same time and in the same manner as supreme court justices and making the term four years beginning the first Monday in July.

The Brunson bill forbidding the soliciting of orders for oleomargarine by outside concerns was ordered to a third reading.

In the assembly after a lively debate Dr. Dahl's constitutional amendment allowing sheriffs to hold office for more than one term was killed.

ASSEMBLY DISTRICTS MADE.

Apportionment Committee has Agreed
on a Proper Basis.

Madison, March 7.—The joint committee on apportionment has agreed upon a report and a bill will now be prepared and reported to the legislature. The following shows by counties how the districts have been divided:

County allowed sixteen districts: Milwaukee county, 30,017 population, or 20,026 in each district.

Counties allowed three districts: Dane, 69,436 population, or 23,145 each district; Rock, 51,203 population, or 17,067 each district; Winnebago, 51,203 population, or 19,408 each district.

Counties allowed two districts: Jefferson, Waushara, Douglas, Grant, Manitowish, La Crosse, Marathon, Racine, Outagamie, Brown, Dodge, Fond du Lac, Sheboygan, Marinette, Columbia, Waupaca, Eau Claire, Sauk, Chippewa.

Most of the other counties remaining get one each, except the smaller counties which are grouped in seven districts.

OPPOSITION TO THE HALL BILL.

Janesville Business Men Heard Before
a Legislative Committee.

Madison, Wis., March 7.—The railroad committee of the assembly yesterday afternoon and evening took up the Hall railroad commission bill and Bronson bill giving the railroad commissioner power to regulate rates. Arguments for and against the bill were heard and another hearing will be held this week. The feature of the hearing was the wrangle over the Hall bill. It soon became apparent that there is more or less feeling over the bill and some of the speeches bordered on the verge of sarcasm and bitterness.

Those who spoke against the Hall bill included manufacturers and business men from all parts of Wisconsin. They argued that the bill would drive small industries out of busi-

ness and would hurt manufacturers. Among those who spoke against the bill were: D. K. Jeffris of Janesville, W. R. Bagley of Madison, L. B. Carle of Janesville, William Larson of Green Bay, Theodore Kennitz of Green Bay, W. G. Herschheimer of La Crosse and J. A. Craig of Janesville.

Those who appeared for the bill were: A. R. Hall its author; Robert Eliot of Milwaukee, and G. H. D. Johnson of Milwaukee. A large number of business men from various parts of the state were on hand to oppose the measure but did not speak.

THIRTY DAY RACE MEETINGS.

Substitute Bill Offered Providing for
Selling of Pools.

Madison, Wis., March 7.—Assemblyman Rossman, author of the proposed Race Pool-Selling bill, yesterday afternoon appeared before the committee on agriculture of the assembly and offered a substitute bill providing for pool selling on thirty day race meetings.

The substitute provides that pools can be sold only ten days a year on any track in the state and on harness races only. Pools on running races are not included, and it is further provided that no person under twenty-one years shall be allowed in the betting ring.

Mr. Rossman is of the opinion that the substitute overcomes all objections that have been raised to a pool selling bill, will keep out of the state any persons who follow race tracks and betting rings for a living and at the same time will promote the breeding industry of fast horses.

AGAINST TAXATION BILLS.

Railroad Representatives Argue Be-
fore Legislative Committee.

Madison, Wis., March 7.—The hearing before the joint committee on assessment and collection of taxes on the railroad taxation bills was resumed yesterday afternoon. Arguments against the bills were made by Lloyd W. Bowers of the Chicago & Northwestern road and George R. Peck of the Chicago, Milwaukee & St. Paul.

Mr. Bowers showed that the railroads were now paying one-eleventh of all of the taxes paid in the state and that this was far out of proportion because the roads did not own one-eleventh of the taxable property in Wisconsin. He quoted from Gov. LaFollette's message to the legislature to back up his claim that the state was not taxing personal property up to the limit and said that millions of dollars worth escaped taxation. He said that the figures of the tax commission were unreliable and that this could be proved by the figures of the governor in his annual message.

Mr. Peck in opening said he proposed to show that the railroads were paying, are paying and would continue to pay their share of the burden of the taxes. This being the case he saw no cause for changing the existing laws. Mr. Peck presented a class of statistics showing that on the average the Wisconsin railroads paid a higher rate of taxation than railroads throughout the United States. The rates throughout the union averaging from 2 to 3 1/2 per cent. The facts would show Mr. Peck said, that the railway companies of this state were paying a higher rate than the railways of other states and also that the railways paid an equal rate of taxation with the other property in Wisconsin.

CADY MUST LEAVE CITY

Men at the Beloit Factory Threaten to
Strike if He is Not Dis-
charged.

Beloit, Wis., March 7.—The fellow workers at one of the big shops here of Arthur Cady who was involved in the case resulting in the suicide of Homer Payne after Payne had attempted to kill his wife, refused to work in the factory if Cady was permitted to continue his employment. The men said that they propose to make it so uncomfortable for him that he will be glad to leave the city. It is said that Payne's widow will also be asked to leave Beloit.

KAISER'S WOUND OVER AN INCH LONG; NO SERIOUS TROUBLE IS FEARED

The German Emperor Was Wounded at Bremen
Yesterday with an Iron Thrown at Him
by an "Unripe" Boy.

Bremen, March 7.—It is rumored that Weyland, who wounded the kaiser, committed suicide in prison by taking poison.

Berlin, March 7.—The kaiser's

WILLIAM II, GERMAN EMPEROR.

wound received at Bremen yesterday is one and a quarter inches long, but he has neither a fever or a headache and no serious trouble is feared.

In the Reichstag Count von Ballesterm said that the wound was not an inconsiderable one and that he thanked God for the kaiser's deliverance. In

the Prussian Chamber of Deputies President von Kroecker said:

"Count von Buelow officially communicates to me that his imperial majesty the emperor and king, was wounded at Bremen yesterday by an iron instrument thrown evidently by an unripe youth. Although the wound is not serious the emperor must keep his bed for several days."

Kroecker then led the house in vociferous shouts "Hoch der Kaiser." The cheering continued some time after the setting of the house suspended.

Physicians Leuthold, Bergmann and Igberg issued an official bulletin as follows:

"The wound is over the right cheek and is one and a half inches long. It passes over the zygoma and has the character of a contused wound. There has been much bleeding but the wound is closed and bandaged without being sewed. His majesty passed a good night."

Hurl's Piece of Iron at Kaiser.

Bremen, March 7.—While Emperor William was driving from the railway station to the railway station here a workman named Dietrich Weiland threw a piece of iron into his majesty's carriage. Weiland was immediately arrested. The emperor is said to have been slightly injured in the cheek, but he continued his journey without interruption. Weiland, who is an epileptic, gave confusing answers to the police regarding his motives.

WOMAN WEDS HER PET MALTESE CAT

The Animal Thus Becomes Her Legal
Heir—Justice of the Peace
Performed the Ceremony.

Binghamton, N. Y., March 7.—Miss Edith Wagner, a maiden lady of Waukesha, Wis., was married here to her Maltese cat in order to give it legal status in the courts after her death, so that she might leave it her property.

The cat is named "Edward" and Miss Wagner firmly believes that it contains the soul of her dead lover, Edward Hamblin.

She could find no minister to perform the ceremony and so engaged a justice of the peace.

One of her friends acting as guardian, made answers for Edward and the ceremony was duly performed.

The cat thus becomes Miss Wagner's legal heir. Provision is made in her will for its luxurious maintenance after her death.

MEIKLEJOHN IS TO RETIRE.

Col. Sanger to Be the New Assistant
Secretary of War.

New York, March 7.—A special to the Tribune from Washington says: The president has selected William Cary Sanger of New York for assistant secretary of war, in succession to George D. Meiklejohn of Nebraska, who has held the office for the last four years. His nomination would have gone to the senate some time ago had not the administration feared that the acceptance of his resignation might injure the prospects of Mr. Meiklejohn for one of the two vacant Nebraska senatorships, for which he is now a leading candidate before the legislature at Lincoln. It is thought now that the announcement need no longer be delayed on this account and his nomination may be sent in soon.

BERNHARDT GOES HUNTING.

Actress Kills Eight Ducks at Chef Men-
teur, La., Sunday.

New Orleans, La., March 7.—Sarah Bernhardt has turned hunter and has demonstrated that she is an excellent shot. Sunday, accompanied by Rapho, the most famous Creole duck hunter of the Louisiana marshes, she left for Chef Menteur on a special train consisting of an engine and one car, on the Louisville and Nashville road. The place was reached in thirty minutes, being but twenty-five miles distant from the New Orleans station. There she and Rapho killed ten ducks, eight going to the credit of the former. Later in the day, after breakfast—roasted ducks—they fished. At dark they returned to town on the special train.

Run on a Bank Is Checked.

Freeport, Pa., March 7.—Charles D. Ludwick, assistant cashier and bookkeeper of the Freeport bank, has been missing since Monday and an examination of the books show an alleged shortage of about \$2,500. His disappearance caused a run on the bank, but the prompt arrival of Isaac Guckenhimer, who is closely allied with the bank's interests, with ample funds to meet all obligations quickly restored confidence. Mr. Guckenhimer says the shortage will not aggregate \$2,500.

WIFE MAY KISS AS MUCH AS SHE CAN

Osulation with Other Men No Cause
for Divorce in Indiana—Point
Settled by Court.

Indianapolis, Ind., March 7.—It has been judicially decided that a married woman gives no cause for divorce in Indiana when she kisses other men than her husband.

She may even kiss them—or particularly one—so many times in one evening that she cannot remember the number and admit it, and still no ground for divorce is given.

Judge Allen settled the point when he refused to grant a divorce to John Ungericht, who pleaded as cause that his wife Mary, had been so generous with her kisses that he just couldn't stand it any longer. But the judge terminated the family squabble by granting a divorce to the wife on her cross bills.

Mrs. Ungericht is a pretty woman, and winsome; Mr. Ungericht is a pleasing little man, and the light of patience unbending shines from his gentle eyes.

The court could not see that Mrs. Ungericht had violated any part of her marriage vow because she had been liberal with her kisses to representatives of the sterner sex.

NO COMMENT ON TIGHT CORSETS

One Cleveland Woman Made to Pay
\$41.50 for Saying Another's
Stays Were Tight.

Cleveland, O., March 7.—Embarrassed by a verdict for \$41.50, the principle was laid down in the Common Pleas court today that the integrity of a pretty young woman's figure must not be publicly impugned nor the tightness of her corsets commented upon. Miss Clara Snyder, pretty and nineteen, sued Mrs. Annie Brickman, a neighbor for \$5,000 damages for slander, the slander consisting of statements made in the presence of a number of mutual friends that Clara's corsets were tight.

HOW MARK HANNA GOT HIS REVENGE

He Was the Man That Induced Sena-
tor Carter to Talk Rivers and
Harbors Bill to Death.

Washington, March 7.—Mark Hanna had his revenge. In the closing days of the session he "got even" with the southern democrats who gave him the first big defeat in life in preventing a vote upon the ship subsidy bill. He it was that knocked the two ends out of the "pork barrel" and spilled all the rich contents in which the southern democrats were so much interested.

Ever since Senator Carter performed his sensational feat of talking the river and harbor bill to death there have been rumors that Senator Hanna had induced Mr. Carter to undertake the task.

MARCONI COMING TO AMERICA.

Wants His Wireless System Examined by
Naval Officials.

New York, March 7.—A dispatch from London says: Signor Marconi, who sails this week on the Majestic for New York, said to a correspondent: "I have no big scheme on hand, but am crossing at the invitation of a few friends. My business is for the most part private, though something, of course, may come out of it. I am going to see some members of the equipment bureau of the navy with a view of getting my system officially examined. I shall at least demonstrate my method of working and in all probability fit up a number of installations on the coast to establish communication with lightships. I also hope to have an opportunity of experimenting on an American warship." Marconi said he had no idea of establishing wireless communication between England and America, that idea being now held by Tesla.

CONSUMERS' LEAGUE MEETS AT MADISON

Main Work of the Society is To Create
a Demand for Garments Bear-
ing a League Label.

Madison, Wisconsin, March 7.—

Tomorrow the Wisconsin Consumers' league holds a meeting. The league includes with two local leagues at Oshkosh and Milwaukee about 350 new men and women, and as it has only been in existence for a few months it is still in its infancy. But among the persons who are officers or who are much interested in the work are Mrs. C. S. Norris, first president of the state federation of women's clubs; Mrs. A. C. Neville, the retiring president of the same organization, and Mrs. Youmans, now its president; Judge Noyes and wife of Milwaukee, ex-Senator Withee, professor W. A. Scott, Mrs. B. C. Gudden of Oshkosh and others. Mrs. Griswold Buckstaff writes of the movement:

"The main work of the state league apart from securing half holidays for clerks and other desirable improvements in their condition, is to create a demand for garments bearing the label of the league, which is a guarantee of excellent conditions of making. We find that we are already creating a sentiment, or giving force to one already existing in many quarters against sweatshop products and the merchants are in sympathy with us."

LIFE INSURANCE ENDORSEMENT PLAN

Peculiar Scheme to Receive a \$100,000
Endowment for Lawrence
University.

Appleton, Wis., March 7.—President Plantz of Lawrence has just received a proposition from a big life insurance company of New York city to increase the endowment fund of the institution by \$100,000 provided that certain conditions can be met.

It is proposed that a number of students be insured on the endowment plan to the amount of \$100,000, the policies to be maintained by friends of the college. These policies will be paid up in ten years.

The plan has been favorably received by the authorities of Lawrence and a number of the students have already signified their willingness to be insured.

NATION SPENDS \$2,000,000 A DAY; BILLION AND A HALF CONGRESS

Cost of the Late War is Still Felt—Requirements of
Army and Navy as Great as During
the Time of Conflict.

Washington, D. C., March 4.—It was a billion and a half dollar congress which went out of business on Monday noon, and yet nobody seems especially excited over the fact. The increases in the annual ordinary appropriations came about in a natural way. According to the official figures prepared today the total appropriations of the fifty-sixth congress amounted to \$1,440,062,545, or an average of over two million a day.

It may occasion some surprise but the fact of the matter is that this congress spent less money than the one which preceded it \$128,150,091. The two congresses however averaged close to a billion and a half mark each. The fifty-fifth congress of course had to provide for the expenses of the war itself, but the congress which just closed has been obliged to appropriate almost larger sums as the result of the war.

From this statement one may obtain some idea of the enormous sum that it takes to run a government like that of the United States. The total ap-

CEBU INSURGENTS ARE TIRED OF WAR

Many Small Filipino De-
tachments Are Surren-
dering Daily.

PROGRESS FOR PEACE

Recent Reports from Manila
Indicate That Bloody War
Will Soon End.

OFFENSIVE ATTACKS ARE RARE

Manila, March 7.—It is reported that negotiations are in progress for the surrender of all insurgents on the island of Cebu. Lieutenant West, with the gunboat Laguna de Bay, surprised an insurgent camp off the island of Talim, on Lake Bay, east of Manila, capturing thirty-one insurgents. Many small detachments in various localities are surrendering daily.

Peace Near in Philippines.

Washington, D. C., March 7.—Secretary of War Root has received a cablegram from Judge Taft, president of the Philippine commission, conveying to the president assurance of great progress made toward peace. The message says in part:

"Since Jan. 1, 1,127 firearms have been captured and 1,368 surrendered. The captures and surrenders are both due to the co-operation of the natives. Since November 5,000 bolomen have surrendered in Ilocos, 1,000 in Albay and the Camarines; 60,000 residents in Panay have taken the oath of allegiance. Offensive attacks by insurgents are now of the rarest occurrence."

"The Federal party, the avowed and direct opponent of the election, has spread with wonderful rapidity in all parts of the archipelago, and is active and urgent in the advocacy of peace and presenting the advantages of civil liberty under American sovereignty."

"The commission has in the last three weeks organized five provincial governments in Pangasinan, Pangasinan, Tarlac, Bulacan and Bataan. The last two are Tagalog provinces. In compliance with urgent native invitations, the commission will leave on March 1 for the south to organize the provinces of Tayabas, Romblon, Iloilo, Capi, Zamboanga, and such others as are ready. Returning we shall organize Zamboanga, Union, Cagayan, and Ilocos Norte. The military governor has recommended the organization of Batangas, Cavite, Laguna, and Nueva Ecija, but we shall delay action as to these until we return from the northern and southern trips."

"The fragmentary cable dispatches detailing small engagements, which are only the result of increased activity of the army after the close of the wet season, made possible by active native co-operation, create a wrong impression on the mind of the public as to the probable continuance of the war and as to conditions which have in fact never been so favorable to the restoration of complete peace and the accomplishment of the declared purposes of the President."

Weyler Removes Martial Law.

Madrid, March 7.—Minister of War Weyler today issued a proclamation removing the state of siege and restoring the civil administration.

A FIERCE ATTACK ON LICHTENBURG

Fighting Has Been on for Several Days—Kitchener
Is Sending Reinforcements

London, March 7.—Lord Kitchener reports from Pretoria that the Boers under Delany are carrying on a fierce attack on Lichtenburg in the south-west Transvaal, near Mafeking. Major Fletcher and Lieut. Hall have been killed. Fighting has been on some days. Kitchener is sending reinforcements.

Durban, March 7.—The Mercury says Commandant Engelbriets has Prinslow and fifty burghers have been captured.

London, March 7.—The Prime minister reports that, since crossing the

frontier, General "Dewet" has moved north of Philippolis. Malan's scouts moved through Richmond and came in contact with a patrol of seventy-four of Kitchener's scouts at Klip's Kraal on February 25th. After a sharp engagement, in which three of the patrol were killed and many wounded, the British were forced to surrender to the 200 Boers surrounding them. Malan was last reported at Modderfontein, south of Blesjes Poort, where he fired upon a train yesterday. The Australians on the train kept the Boers off. The burghers are being followed by a detachment of Kitchener's scouts.

SOME IDEAS ON THE MODEL HOME

Paper Read by J. C. Devereux at the Rock County Farmers' Institute at Evansville.

The following paper on "The Model Home," was read by J. C. Devereux, at the Rock County Farmers' Institute held at Evansville last week:

"So marked and varied are the surroundings which govern people in the many vocations of life, with different ideas and aspirations, there must necessarily be a hesitancy in choice as to what this or that one would select for an ideal, whether they have a residence in the city or in the country.

If we assume a wide road is easiest to travel it will be a help in our wanderings and meditations because expansion broadens the ideas and lends scope to energies perishable when not well developed. So many have essayed to furnish a satisfactory definition of a model home there is danger that it will suffer from constant overhauling, and like the temperance question, for the want of something new, lapse into a comatose state, if it has not already done so.

There is no loss without some gain and whatever may be its fate, it is interesting to note the many ideas advanced for the attainment of the object.

I do not agree with those writers that think everybody can have a model home, provided money is not wanting. The old saying that money makes the mare go, will not do where a combination is indispensable and without which no home can be a perfect one even though the idealistic is constantly before you in your neighbor's cozy domicile, where happiness, contentment and love is the ruling passion and storms and adverse winds never cross the threshold.

There must be something back of the necessary training in ethics and morals to insure success. You would not take out a life policy in a company that had no assets to pay in case of your demise. You would not pay full price for a defective article, knowing it to be such.

A man may build a mansion with all modern improvements yet his disposition and tastes may run counter to rules necessary in solving the problem of the model home. Business cares and worry over reverses may induce restlessness and indigestion, loud snoring may warrant him a hunch with the wife's elbow and the hour of rising find him with a ruffled temper and disheveled locks—and, though the wife be a jewel, the model home is a failure.

In the model home unity of sentiment, compatibility of temper, forbearance, sympathy and love, natural aptitude and inclination to look on the bright side should not be wanting. The wife may be addicted to putting the care of the children on the servants, rising late in the morning, mistaking some other for her husband; these are only incidents that obtrude themselves on the careless.

Come into town—where we have cheap politics and high taxes; and when Mrs. Nation gets in her work of sympathy and love while wielding the hatchet of demolition and retributive justice that millions yet unborn the progeny of posterity in coming years may walk the grim earth without being tainted with the blood and fumes of King Alcohol.

Mozart said just before he died, "Now I begin to see what might be done in music." Who can say they have a life work where for forty years under one roof they have been

weaving in the ideal loom the warp and woof of God's sunlight and yet at this writing the model home is unfinished?

I would extend to them my blessing and all the aid and sympathy I possess and suggest they suspend from the wall in the coolest room a photo of that little Kansas hatchet as a gem to crystallize and purify the sentiment it would represent and hasten the completion of what the ideals have pictured—a model home, where temperance and sobriety have a place and contentment a continued feast.

The model home, so much easier pictured in the imagination, written about, talked about, than acquired by experimenting, it is no wonder the disparity is so great and the chances will not improve while the road to the ideal is so difficult, when thoughts controlling the imagination are so easy of access. To those accustomed to a residence in the country it is easy to see advantages over the city. Ample room, independence and pure air, and no bell on the door, makes the model home possible. Other mottoes too, should lend inspiration and beauty as they will when appreciated. We favor woman suffrage. Please do not discuss politics. Ladies will not chew in the presence of gentlemen. A wise man, if married, will keep his hat on.

It is said our bodies are the temples of our souls and that which adds to their best development and growth enlarges the inner life; and the truly good and beautiful evolves and blooms around the altar of domestic love. The model home is the product of the model wife and considerate husband. Life is much what we make it; the circumstances often overthrow the most careful and conservative plans and like the weather is subject to changes beyond control.

It is wrong to say if one succeeds another can. We should not withhold sympathy when we cannot prove our position. All could not prosper if pursuing one occupation; and would not our wants be our neighbor's desire, and would not every man want his neighbor's wife, and where then would be the model home?

It is just possible the ideal home is conspicuous for what it is not. Home, sweet home; be it ever so humble, is joy and peace and welcome. Where hope springs within the breast love grasps the icy hand, the soul on fire and all aglow, the rays will pierce and light the model home.

BONE OF CONTENTION IN NEXT CAMPAIGN

The editor of the Oshkosh Northwestern, a paper that is perhaps now the most prominent of the LaFollette press, spent last week at Madison, and writes to his paper:

"If the primary election bill is defeated, its supporters will undoubtedly bring it up again, and it will be the bone of contention in the next campaign. Should it be passed there will be a vigorous effort to repeal it at another session. It promises to divide the republican party into two powerful factions, and no one can foretell the end. As the legislature to be elected next year is to choose a successor to Senator Spooner, the success of the LaFollette element would probably mean the involuntary retirement of the senator and the death of the movement looking to the presentation of his name as Wisconsin's choice for the presidency in 1904. On the other hand, if the bill is killed at this session, the next step will be an attempt to defeat Mr. LaFollette for renomination next year. Thus to both sides the fate of the Primary Election bill is to be to a certain extent the crucial test of the present administration."

MRS. WHEELER TALKS OF MISSION WORK

Annual Thank Offering Meeting of the Woman's Missionary Society of Court St. M. E. Church.

The annual Thank Offering meeting of the Woman's Missionary Society of the Court Street M. E. church which was held in the church parlors yesterday afternoon was a notable service there being present a number of ladies from missionary societies of other churches as well as a large attendance of the Court St. ladies.

Mrs. Poorman, president of the society, presided, and Mrs. C. A. Hunt, the efficient secretary had charge of the program. The opening services included a prayer by Miss Jennie Tilton and the reading by Mrs. J. M. Bostwick, of a leaflet describing the present condition of the work in China, the experiences of some of the missionaries during the war and the purpose of the various mission boards to push forward the work of transforming China's darkest hour into a bright future.

The musical program added much to the pleasure of the meeting and included a vocal solo by Miss Cora Anderson and Miss Etta Nott and a trio by Mrs. Fannie Clark and the Misses Nott and Anderson, who sang "Fast the Night is Falling," beautifully.

Miss Ada Pond played the faultless accompaniments.

The central attraction of the afternoon, however, was a talk by Mrs. L. N. Wheeler, a former resident of this city and for many years a missionary in China. Mrs. Wheeler and her husband were the first Methodist missionaries in Peking and built the first chapel there. Their daughter and her husband Mr. and Mrs. Verity, both of whom are well known here, are also in the Chinese mission field. They passed through the horrors of the war safely and are now at Tien Tsin, and although mission work among the natives is retarded they are devoting their time with splendid results to the soldiers in China, especially those of the English and American armies.

Mrs. Wheeler spoke of the Chinese as he knows them and it was very easy to see that all of her sympathies are with the people to whom she has devoted the consecrated service almost of a life time.

Presiding Elder W. W. Stevens and Rev. Walter A. Hall added brief remarks of endorsement and then the meeting closed with prayer by Rev. Hall. Many of Mrs. Wheeler's personal friends were in the audience and some time was devoted after the meeting to the exchange of greetings and the inspection of some Chinese curios.

AMUSEMENT NOTES

The attraction at the Grand tomorrow night will be one of sterling merit inasmuch that "A Poor Relation" was one of Sol. Smith Russell's first winners, and as "Noah Vale" the poor

inventor, Mr. Russell made his most artistic success. Mr. Fred G. Berger and still Mr. Russell's manager is sole manager of the "Poor Relation Co.," which is ample guarantee of the superb cast of players, and that careful and conscientious management which makes possible a delightful performance.

Miss Grace Filkins, who plays the role of adventures in Otis Skinner's latest play "Prince Otto," which will be seen here next week is said to give an admirable portrayal of the part. Miss Filkins is generally regarded as one of the famous beauties of the stage. Nature has given her a beautiful face, a magnificent figure and has topped the whole with an aureole of that particular tint of copper nued hair that Titans so loved to paint.

The advance sale of seats for this engagement of Comedian Thos. Q. Seabrooke, in "The Rounders" opens at the boxoffice Tuesday, March 13 at 9 o'clock. Interest in the performance is keener than at any stage production given here this season. Everybody has heard of the tremendously long and phenomenally prosperous run of the piece at the New York Casino and visitors to the big city who witnessed it have resounded its praises without limit. In addition to this Seabrooke's name is always a talisman for sure-fire fun in the rich domains of the comic opera, a quality of stage diversion more popular here perhaps than any other form of stage diversion.

Delicate Surgical Operation.

Dr. J. P. Thorne Monday performed a delicate and successful operation, by removing a pterygium from the left eye of John H. McVicar, of the firm of McVicar Bros. The substance had been growing for the last eighteen years and threatened to destroy the sight. It is thought that the operation will restore the eye to its

GAIN FLESH

An Absolute Necessity
in Many Cases.

A DECREASE IN WEIGHT
FREQUENTLY INDICATES
A DECLINE.

Our Modern Rebuilder, Vinol,
Will Help You Do It.

THE WAY IT ACTS ON A DE-
PLETED CONSTITUTION IS
SIMPLY MARVELOUS.

Are you getting thin? If you are
you had better watch yourself. Take
Vinol. It will build you up quickly
and surely.

A healthy man does not vary much
from year to year in his weight.
This is as it should be. Vinol enables
the organs of the body to renew flesh,
muscle tissue, bone structure, and at-
tends to purifying the great vital cur-
rent of the human system, the blood.

Vinol contains the active curative
properties of Cod-Liver Oil in a highly
concentrated state, and is the most
wonderful tonic that we have ever had
anything to do with.

Vinol acts upon the stomach in a
beneficial way, enabling it to obtain
for itself the necessary ingredients
from the food that is taken into it to
build up the pure healthy body and in-
crease the weight.

Mr. H. M. Stufell, who is a well-
known passenger trainman on the
Boston and Maine Railroad, suffered,
as many railroad men do, with kidney
and other troubles. He writes as fol-
lows:

"My kidneys troubled me a great
deal, my bowels were very irregular, I
had great distress in my stomach, suf-
fered with bilious headaches, had no
appetite, could not sleep nights, and
was losing flesh rapidly. I began to
take Vinol, I am now on my third bot-
tle, and it is doing wonders for me.
My kidneys are better, my bowels are
again regular, my stomach no longer
troubles me, and no more headaches,
and as for appetite, don't speak of it;
I sleep like a top and have gained
thirteen pounds. You can count on
me always to recommend Vinol as the
king of medicines."

With many such testimonials as
the above coming before us, it is not
strange that we endorse Vinol as
strongly as we do. We unhesitatingly
agree to return to any one
who has taken Vinol and is not
satisfied that it has accomplished all
that we claim for it every cent that
they have paid us for this remedy.

Farewell to Minister Conger.
Pekin, March 7.—A farewell recep-
tion was given today in the Chao-
Kung-Lu palace, belonging to the Em-
press Dowager, to Mr. and Mrs. Conger
by Mrs. Scheffeld and a number of
American missionaries.

Smallpox Rages in Glasgow.
Glasgow, March 7.—Today's small-
pox report is the worst since the out-
break of the disease here. There are
forty-two fresh cases and the total
number of smallpox patients in hospi-
tal is 425.

Twice Proven.
From the Vindicator, Rutherfordton,
N. C.

The editor of the Vindicator has
had occasion to test the efficacy of
Chamberlain's Pain Balm twice with
the most remarkable results in each
case. First, with rheumatism in
the shoulder from which he suffered
excruciating pain for ten days, which
was relieved with two applications
of Pain Balm, rubbing the parts af-
fected and realizing instant benefit
and entire relief in a very short time.
Second, in rheumatism in thigh joint,
almost prostrating him with severe
pain, which was relieved by two ap-
plications, rubbing with the liniment
on retiring at night, and getting up
free from pain. For sale by People's
Drug Co. and King's pharmacy.

Many Hurt in a Wreck.
Philadelphia, Pa., March 7.—An east-
bound passenger train on the Pennsylv-
ania railroad ran into a freight train
at Hopetown, three miles west of
Coatesville, at noon today.

Over a dozen passengers were in-
jured by the collision, but how seriously
is yet unknown. A hospital train has
been sent to the scene of the wreck.

Fifteen Hundred Young Men and Women
Assemble to Sing in Celebration of
the Emancipation of the Serfs—Are
Driven to City Hall.

St. Petersburg, March 7.—The forti-
eth anniversary of the emancipation
of the serfs was marked by serious
disturbance. The students had been
planning for some time to keep the
day as a holiday and perhaps make
some demonstration, but no particular
plans were made. At noon 1,500 men
and women students gathered in and
around the Kasan Cathedral on the
Nevsky prospect, where mass for the
repose of the soul of Czar Alexander
II. was being celebrated. After the
mass the students began singing, and
the police gathered in great numbers.
The students were surrounded and
driven in a crowd towards the city
hall, not far away, and also on the
Nevsky prospect. For no special
reason the police began beating the
students and trampling them under
the feet of their horses.

Students Flee in Horror.
The Nevsky prospect was filled with
spectators. The banks and business
houses were nearly all closed, with
shutters fastened and doors locked.
The spectators and women students
screamed with horror, but the police
kept up their attack on the students
until 400 of the latter were driven into
the courtyard of the city hall, the
others escaping into the crowd. The
entire city was horrified by the con-
duct of the police. The Russian police
were in charge of Lieutenant General
Kleigt, the prefect of police, who,
when he rode to the scene of the trou-
ble, was hooted by the students and
their sympathizers.

Women in the Crowd.
Another report says that many wo-
men professors of the higher educa-
tional schools were among the gather-
ing of male and female students
who assembled on the Nevsky pros-
pect, and that the students petitioned
the clergy to hold special services in
memory of Alexander II, but the
clergy refused to do so on the ground
that they had not the authority. Meantime
the petitioners were sur-
rounded by the police, who did not
seem aware of the object of the de-
monstration, but inferred it was sedi-
tious. The students then began sing-
ing seditious songs, and the police
charged them, as already described.

LONDON IS GREATLY EXCITED.

The Ousting of Irish May Cause Serious
Trouble.

Dublin, March 7.—Commenting upon
the scene in the house of commons,
the Freeman's Journal rejoices that
"Ireland at last possesses a party
that will teach Westminster that if
the rights of Ireland are to be sacrific-
ed the character and privileges of parlia-
ment will accompany the sacrifice."

The Irish Times says: "Despairing
of getting sufficient support and main-
tenance in London from their own
countrymen, those pretending to re-
present Ireland, meditating a mendic-
ant pilgrimage to the 'land of the dol-
lar,' fondly imagine brutality will
serve as a bold advertisement."

London, March 6.—The excitement
occasioned by last night's scenes in the
house of commons is still very evident,
and when the house met at noon today
in view of possible disturbances, the
whole police force on duty at St. Ste-
phen's had been mobilized and re-
inforced by reserves.

John Redmond speedily rose and
raised a question of privilege arising
from "the painful scenes of last night."
He claimed that members had been
suspended without proper steps being
taken to identify them, and that their
removal had been accompanied by un-
due violence. He was satisfied, he said,
that members were suspended who
had actually gone to the lobby to par-
ticipate in the division.

Recovers From Grip.

Mrs. E. I. Masters, at her home in
Monitor, Ind., used Dr. Miles' Nerve
and Pills to cure after effects of
grip.

Mrs. A. E. Lopeer, in the little town
of Modella, Minn., used Dr. Miles' Pain
Pills and Nerve and Liver Pills and
was well in a few days.

President McKinley is slowly recov-
ering from grip and its after effects.
George J. Flannery was relieved of
the awful pains in his head in fif-
teen minutes, by the use of Dr. Miles' Pain
Pills. Now he is rapidly recover-
ing at his home in Buffalo, N. Y.

Speaker Henderson is again in his
chair in the House of Representatives
after a severe attack of the grip.

J. C. Helfrey, foreman of the West-
inghouse factory in East Pittsburgh,
had a severe attack of grip, but he
used Dr. Miles' Nerve and Pain Pills
and was soon back in his place.

Rev. C. Body was in a serious con-
dition at his home in St. Paris, O.,
but Dr. Miles' Nerve and Nerve and
Liver Pills pulled him through all
right.

PERSONALS.

Mrs. E. P. Green has recovered
from an attack of the grip at Canas-
saga, N. Y., by the use of Dr. Miles'
Pain Pills.

Among the victims of the grip epi-
demic now so prevalent, F. Coyle is
recovering at Canton, O., by the use
of Dr. Miles' Nerve and Pills.

W. E. Nihells, of St. Louis, Mo.,
who was down with grip, is reported
much improved. He used Dr. Miles'
Nerve and Pills.

The friends of Mrs. L. Denison will
be pleased to learn of her recovery
from grip, at her home in Bay City,
Mich., through the use of Dr. Miles'
Nerve and Pills.

Everybody says that J. W. Udy is
looking splendid since his recovery
from the grip at his home in Des
Moines, Iowa. They all know that Dr.
Miles' Nerve was what cured him.

At nearly three score and ten Mrs.
Galen Humphrey was fighting against
odds when the grip attacked her, but
she took Dr. Miles' Nerve, and now
her neighbors at Wareham, Mass.,
remark on how well she is looking.

Prosecuting Attorney Charles L. De
Waele, who has passed "the three-
score mile stone, had a time with the
grip; but when seen at his home in
Roscommon, Mich., the other day,
he said Dr. Miles' Nerve was what
cured him.

After an illness of five weeks from
the grip, Mrs. Harriet Jackson is
again about and looking fine. She
began taking Dr. Miles' Nerve after
the fourth week. Her home is in Bow-
ling Green, Mo.

"I had been in bed three weeks with
grip when my husband brought me
Dr. Miles' Nerve, Pain Pills and
Nerve and Liver Pills, I was cured,"
Mrs. J. Reiner, Franklin, Ind.

Alger Plans Model Town.
Jacksonville, Fla., March 7.—Gen-
eral Russell A. Alger, as head of the
Alger-Sullivan syndicate, will build a
model town near Pensacola on the model
of Pullman, Ill. West of Flomaton,
near the Georgia-Florida line, an im-
mense saw mill, the largest in the
south, is to be erected by this syndi-
cate. Several hundred men are now
employed clearing away the timber
and grading. The town will have, in
addition to the residences, each on a
separate lot, churches, schoolhouses,
an ice-house, and all modern city
conveniences, as paving, lights, water,
etc.

Train Crushes Three Men.
London, March 7.—The Moscow cor-
respondent of the Daily Mail says:
"During the recent heavy snowstorms
fifty men were sent to clear the snow
out of a railway cutting near Wolovo
on the Riazan-Ural line. They were
just leaving the cutting when the
train came down at full speed and
crushed about thirty men into shapeless
masses, their clothing clogging the
axles and stopping the train. Inquiry
shows that the engine driver and all
the guards were drunk."

Witness of Lynching Dies.
Torre Haute, Ind., March 7.—George
Woods, a teamster, became insane be-
cause he thought he would be mobbed
by negroes for being present at the
lynching of the negro, Ward, mur-
derer of Miss Finkelstein, last week,
and while in jail for safekeeping died
from apoplexy. He had tried to buy
morphine to commit suicide.

CHILDREN PERISH IN FLAMES.

Two Little Daughters of Mrs. Mattie
Peal Dead at Matthews, Ind.

Matthews, Ind., March 7.—The dwell-
ing of Mrs. Mattie Peal, a widow,
burned during her absence, and two
of three small children left in charge
were burned to death. The clothing
of one child became ignited in some
way. In the attempt of an older sister
to extinguish the flames her cloth-
ing was also ignited. The third child,
Hazel, ran for assistance. Nina, aged
4, and Morie, aged 2, perished in the
house. Hazel was seriously burned
and may die.

Theodore Couch's clothing was ig-
nited by a natural-gas flambou at the
Winslow window glass factory and he
was burned to death.

Mrs. John Willis, suddenly overcome
with heart trouble, fell on a stove and
was seriously burned.

Aged Woman Burned to Death.
Chicago, March 7.—Mrs. Martha J.
Case, a widow, 71 years old, was fat-
ally burned in a fire resulting from the
overturning of a small gas stove in
the morning at her home, 16 Lincoln
avenue. She died at 2 o'clock in the
afternoon.

Makes a Duel Inevitable.

Paris, March 7.—The seconds of M.
Paul Deroulede and M. Andre Buffet
met today. M. Buffet's representa-
tives declared that he had not insulted
M. Deroulede in making a statement
for the duke of Orleans, and there
were no grounds for a duel. The de-
cision was telegraphed to M. Deroulede
in Madrid, and he immediately wired
M. Buffet as follows: "You threw
down the glove to me, and now I have
picked it up. It is impossible for the
king's champion to steal away. I pre-
fer to believe that what exercised you
principally was the choice of weapons.
I let you have it. M. Andre Buffet,
you are a royal liar! This message
renders a duel inevitable."

Shoots Wife; Kills Himself.

Atlantic City, N. J., March 7.—Al-
bert Zimmerman, 40 years old, shot
his wife through the head and attempt-
ed to kill her father. He then turned
one revolver upon himself and sent a
bullet through his brain, which killed
him almost instantly. The tragic oc-
currence place in the Zimmer-
man home, on the outskirts of the
Absecon, near here. The killing was
the result of a family quarrel while
Zimmerman was drunk. The suicide
was a son of the inventor of the auto-
harp. At the death of his father he
was left a fortune of \$40,000, but had
lost nearly all in speculation.

Mr. E. T. Fish, of 355 Racine St.,
proprietor of the Fish Dry Line, says:
"When I was twenty years of age I fell,
injured my back, and ever since that I
was troubled more or less with a dull,
aching pain across the loins. It never
laid me up but it was often painful and
annoying. Of late years I have gone
to a physician every six months and
had myself thoroughly examined
under the impression that there might
be something wrong with my kidneys.
The diagnosis always resulting in the
physician claiming these organs were
sound, but as the pains existed when I
happened to notice in our Janesville
papers that Doan's Kidney Pills were
guaranteed to cure just such troubles I
procured a box at the People's
Drug Co's store, and took them. Doan's
Kidney Pills are a good preparation.
My back has not ached since I used
them. I have heard others speak very
complimentary of them and if I did
not know their merit and required such
a medicine I would consider it a favor
if some one suggested their use to me.
For this reason I endorse them."

ON THE RIGHT TRACK.

The informal talk of some of the aldermen at the last meeting of the council, regarding sewerage, and submitting the question to the people at the spring election, is along the right lines. The people are competent to decide the question, and they should be given an opportunity to do so.

What Janesville needs as a city, is more of the progressive spirit, a disposition to help ourselves, by helping each other. The city has the railroad facilities, with new electric lines in sight, that will be very beneficial.

It has a school system and equipment second to no inland city in the state.

It has the churches, sufficient in number and strength, to speak well for the morality of the place.

It has banking facilities sufficient to accommodate a population double the size.

It has the most conservative and most reliable class of business men of any city in the state.

It has saloons enough to keep Mrs. Stanton busy for a day or two when she visits Wisconsin.

It has less tanks and more clubs than all the common lot of towns of similar size.

It supports a good library with flattering prospects for a Carnegie annex.

It will have a good government building before snow flies.

It has a street railway that ought to be patronized a good deal more than it is.

It has more pretty girls and less duds than Oshkosh.

It has an electric lighting company that appears to be strictly in it, and a gas company with facilities for serving a good sized city.

It has ambition, largely undeveloped, but capable of wonderful accomplishments when turned loose.

It has no use for the primary law, which shows that it is level headed.

It has money and knows how to keep it.

It has good horse sense on many questions with just enough mule sense sprinkled in to relieve the monotony.

In fact the city would be a veritable paradise if it had a good sewerage system.

All joking aside, let's consider the question of sewers seriously, give it plenty of candid thought, vote to have a good system installed, and expect to discover in it, the best investment that the city ever made.

What if it costs a couple of hundred thousand dollars? The city can pay for it in twenty years, and never know it, and long before that time, if everybody takes hold with a will to build up the city, and does more smoking and less croaking, Janesville will have a population of 25,000 and everybody will be happy.

SOMETHING ABOUT TAXES.

The appropriation asked for, and now in the hands of the committee on claims, amount to about a million and a half more money than the prospective revenue of the state for the next two years. The revenue in round numbers amounts to seven and one half million dollars. Of this amount the railroads pay about four millions, and the people through the one mill educational tax, about one and a quarter million. This last amount is the only direct state tax that the people are called on to pay, and it certainly is not heavy.

The appropriations asked for amount in round numbers to nine million dollars, and include various special appropriations for the university and buildings at Chippewa, Green Bay, and other institutions.

An effort is being made to increase the railroad tax some \$700,000 and thus relieve the people from direct tax. Without knowing all there is concerning the merits of the case, it would seem as though there was a disposition to burden the corporations at the expense of the people. If the state continues to prosper, the railroads and the people must work together. There is nothing to be gained in the end by unjust taxation to corporate interests, simply because the state possesses the power. If the committee on claims find that the amounts asked for are needed, then the appropriations should pass, and the property of the state, both corporate and individual, should pay their just proportion of the tax.

If the railroads are paying all they ought to pay now, and that is

a question for the legislature to intelligently determine, then they should not be compelled to pay more. If the state needs the improvements asked for, and that is another question for the legislature, then the people will not complain at the expense. A one mill direct tax brings in something over a million dollars, and it is not heavy. Better by far for the people to pay it in their own interests, than to ask the railroads to pay more than their just proportion.

The republican party has nothing to fear in going before the people with a clean statement of facts, based on the needs of the state, and simple justice to every class of tax payers. There is no popular disposition to take advantage of corporations, that may be helplessly in the power of the state, and the legislature will make a mistake if they attempt to deal unjustly with them.

If the state needs more money for legitimate running expenses, go at it in a common sense, business way and provide it, and public sentiment will approve.

The idle threats that are being made by some of the friends of the Primary bill at Madison are silly in the extreme, and shows a spirit of desperation that is an element of weakness. One member of the Assembly is reported as saying in substance that if the senate wants a fight, the lower house is ready for it. The Senate is composed of a conservative body of men, that are not in Madison to fight anything. They have shown gentlemanly consideration for the erratic movements of the Assembly, but they are not disposed to dance to the music that is out of time and out of harmony with public sentiment.

Carter Harrison is again the democratic nominee for mayor in Chicago. He will be elected unless the republicans and reformers unite to beat him. The latter are a hard proposition unless they can dictate. Judge Haney, the republican candidate, is entitled to cordial support. The reformers worked against him in the primaries and they are liable to show their disloyalty by staying away from the polls. The county hasn't much use for that class of reformers, and the democratic party is not cursed with them.

The people of Janesville have reason to congratulate Congressman Cooper in securing for the city an increased appropriation for a government building. With \$75,000 it will be possible to have a building that will be an ornament to the city. The work will doubtless be commenced at an early date and it may be possible to have Mr. Cooper assist in the dedication before he returns to congress in December.

Louise P. Crow, D. O., of Janesville, is recognized as one of the most intelligent lobbyists in Madison. She is working in the interests of the Osteopathic bill, and is convincing the legislators that the science has merit, and that she is master of it, as her many friends in Janesville can testify. Dr. Crow lectures at the Osteopathic College in Milwaukee every week.

Mr. Bryan was not able to attend the inaugural ball on account of the "Commoner." He is a very busy man making up for lost time, and preparing for the next campaign. Nebraska will not be destitute of presidential timber for some time to come.

CONVENTION OF THE BADGER W. C. T. U.

Preparations for the Meeting in Janesville on May 21 Being Actively Pushed

Preparations for the state W. C. T. U. convention which is to be held in this city on May 21 are being pushed rapidly and although the date is yet somewhat distant plans for the program and the entertainment of the visiting White Ribboners are taking definite form.

Mrs. V. H. Campbell of Evansville, president of the association was in the city today on business connected with the convention. Much is counted on for the success of the convention from Mrs. Campbell's efficiency as a parliamentarian and a presiding officer. She will take charge of the course in parliamentary law at the Marquette assembly during its session in August.

Some of the speakers have already been secured for the coming convention. Miss Gordon, vice president of the National W. C. T. U. and former secretary to the late Miss Francis Willard will be in attendance and it is expected that she will be but one of many prominent temperance workers whose presence and words of helpful advice will lend inspiration to the state work.

T. J. Anderson is home from Indiana where he was called by the illness of his mother.

The date for the debate between the Janesville and Appleton school societies has been set for May 3. It will be held in this city and the topic will be "Resolved, That China should be Partitioned." Janesville has the negative side.

DRAFAHL-MILLER WEDDING TODAY

Ceremony Performed at the Court Street, M. E. Church Parsonage by the Rev. W. A. Hall.

Miss Annie J. Drafaul and William C. Miller were happily married at the Court Street M. E. church parsonage this morning at 10 o'clock, Rev. Walter A. Hall performing the ceremony. They were attended by Herman C. Miller, brother of the groom and Sarah Z. Drafaul, sister of the bride, and at the conclusion of the ceremony the happy participants took the train for Afton.

The groom is an industrious young farmer and is the son of Fred Miller of the town of Center. The bride is the daughter of Peter Drafaul of the town of Rock. Their many friends will wish them many years of happiness and prosperity.

Tribute to Carrie Jacobs-Bond.
Elbert Hubbard in "The Philistine" for January, 1901, says of Mrs. Carrie Jacobs Bond:

"Art, at the last, is a matter of heart, not head; and this fact was brought home to me strongly a few weeks ago on hearing Carrie Jacobs-Bond. Here is a woman who writes poems, sets them to music and sings them in a manner that reveals the very essence of art. Her performance is all so gentle and spontaneous and unaffected that you think you could do the same yourself—simple, pattering little child like songs, set to tunes that sing themselves. But in some way they search out the corners of your soul, and make you think of the robin that used to sing at sunset, calling to his lost mate, from the top of a tall poplar in the days of the long ago. As a reader and singer Carrie Jacobs-Bond is as subdued as a landscape by Casin, and as true and effective as a sketch by De Monvel."

Miss Mary Stevens is able to be out after a few weeks' illness.

A committee was appointed to secure and furnish suitable rooms for the daily use of the members of the association. Bylaws were adopted and the main objects of the association were stated.

ANXIOUS FOR A GAME WITH BELOIT BOYS

Prof. Dudley, who has charge of the athletic sports at the high school has written to Beloit to try and secure the college basketball team for a game with this city next Wednesday evening, March 13. If satisfactory arrangements can be made, other sports will be added to the evening's program to make it a strong attraction. There will be a game between the high school girls and the alumni girls and in all probability two wrestling matches between high school athletes will be arranged for.

WAUSAU LIKES "A POOR RELATION"

The following telegram was received here today: "Wausau, Wis., March 7—Peter L. Myers, Grand. A magnificent audience greeted Frank Keenan 'A Poor Relation.' He is unquestionably great, and his wonderful acting aroused intense enthusiasm. Four curtain falls after the second. It is the best performance, company and play ever seen here."

Dr. Culliss Lecture.

Dr. Culliss continues to entertain the people at the Court Street M. E. church and his illustrated lecture last evening on "Ten Nights in the Bar Room" was one of the best of the series. The largest audience of the week enjoyed the lecture and the splendid views by which it was accompanied.

GOOD, CLEAN,

Some people pay more per ton for coal than others, yet they are all charged the same price.

The explanation of this seeming inconsistency, is that some buy ordinary coal, while others (the wise buyer) order GOOD, CLEAN COAL.

COAL

WHY

it is cheaper to buy good clean coal is easily explained. Our good, clean coal is all coal, free from the impurities found in most coals. Don't pay for slate, dust, etc. Order Good clean coal of

ANNIE COLLINS GETS A JUDGMENT

Judge Siebecker of Madison overruled the motion for a new trial in the case of Ann Collins vs. The City of Janesville, and ordered judgment entered for the plaintiff for the sum of \$2,800 and costs. This is the third trial of the case, it having been set aside twice before on account of excessive verdict. Miss Collins sued the city for injuries claimed to have been sustained from a fall on a defective sidewalk in the Fourth ward.

WILL E. HOWARD TIRED OF LIVING

Young La Prairie Farmer
Puts Three Bullets In
His Head.

FOUND BY HIS WIFE

He Was Barely Alive At Two
O'clock and is Sure
To Die.

LEFT A SUGGESTIVE LETTER

Will E. Howard died at 3 o'clock
this afternoon.

Will E. Howard, a prominent young farmer living in the town of La Prairie about four and a half miles southeast of town made a desperate and probably successful attempt to commit suicide by shooting himself with a revolver.

He was found about nine o'clock by his wife who went out to the barn to call him to come up and help them do some work in the house. She found him lying on his back in a large shed used for storing shredded corn stalks with his face covered with blood. She did not think that he had committed suicide but thought that he had been badly injured. She ran out of the shed and over to M. A. Reed's house which is just a short distance away and told him to come quick that "Will was terribly hurt."

Flat on His Back.
Mr. Reed's first thought was that he might have been attacked by the bull on the place and he ran across lots as fast as he could go.

When he entered the shed Howard lay flat on his back with his legs straight out and his right hand partly under his body. He examined him and saw that he had shot himself. Mrs. Howard came back about this time and he told her that Will had shot himself and she told him that this could not be as he had no revolver. Reed then took hold of the body and moved it a little disclosing the revolver covered with blood lying on the stalks right under the right hand. Howard was still alive so they picked the body up with the help of the hired man and carried him into the house and placed him on his bed.

Summoned a Physician.
John Morton who lives near him jumped on a horse and came immediately to town after a doctor. He found Dr. James Mills, who left at once for the home of the injured man. Howard was still alive when Dr. Mills arrived and he went immediately to work to see what could be done for him. He found that one shot had been fired into the center of the head but had glanced off and had not penetrated the brain. Another shot went in just above the right eye and came out near the right temple. The last shot went in just back of and above the right ear smashing the skull and penetrating the brain.

This was evidently the shot that finished the business. Dr. Mills fixed the injured man up as well as possible but thought he could not last more than an hour.

Wife Discovered the Body.
Mrs. Howard was the first one to find the body. Mr. Howard got up this morning and attended to the chores about the place and milked the cows. He came into the house for breakfast about seven o'clock and his wife told him that breakfast would be ready in about fifteen minutes and for him to sit down and wait. He said nothing but got up and buttoned his coat, put on his cap and started out as if to finish up some work he had to do.

That was the last seen of him until he was found by his wife in the shed nearly dead. The family waited breakfast for him some time as he did not come ate their breakfast thinking that he was engaged in some work that he wanted to finish and that he would be in later. About nine o'clock she went to the barn to get him to help her and found him lying there covered with blood.

Discovered Revolver.
Undersheriff Wallace Cochran and a Gazette reporter went out to the scene of the tragedy. Undersheriff Cochran took charge of the revolver a 32 caliber double acting Iver Johnson which was under his right hand when Mr. Read discovered the body, and a box of cartridges which were laid on a box near where his body lay.

Three cartridges had been fired showing that he was determined to make a sure thing of it. A small red memorandum book with a pencil in it lay in a pan on the box on which the cartridges were found and had the following written in it:

"Well, good-bye. I am tired of living and have taken my life. I have been thinking of killing myself for some time and now made up my mind to do so. You told me last night that you wished that you had never seen me nor my house and so that set my head whirling and so you can go ahead and fix up the house to

suit yourself. Good-bye; be good to the children.

Meant for His Wife.
There was no address or name signed to the message but it is supposed it was meant for his wife.

Howard was a young man twenty-six years of age with a wife and two children, a boy and a girl, and had been married about six years. He was the son of John Howard who died some ten years ago and his wife is a daughter of the late Alexander Morton. He had a farm of one hundred and sixty acres of land and was in a prosperous condition.

His uncle, W. H. Howard, said that he could not account for the act in any way, only that the young man was subject to fits of melancholy and when under the influence of one of these he had a hard time controlling himself. His father was subject to the same sort of attacks and the young man inherited them.

Found a Trail of Blood.
Undersheriff Cochran made a careful examination of the premises and discovered a trail of blood leading from where the body was found through the cow barn across the yard and into the horse stable.

It looks as if Howard fired the first or maybe the first two shots into his head in the horse barn, but they not killing him he walked across the yard into the cow barn and on into the shed where the shredded corn stalks were kept and there shot himself the last time, falling where the body was found.

Bought Revolver Two Weeks Ago.
Howard purchased the revolver and cartridges from A. H. Sheldon & Co. about two weeks ago. He came in and asked for a revolver and a box of cartridges. He took the outfit and paid for it without making any comment. It looks as if he had the matter under consideration for some time.

MERCHANTS ASKED TO HELP SOLICIT

Canning Factory Promoters are Anxious to Reach as Many Farmers as Possible for Acceage.

The proposed new canning plant, when completed, with machinery, will cost between sixty and seventy-five thousand dollars. The main building will consist of a brick structure 50x200 feet, two stories high and a basement, with a wing attached, about 100x150 feet, two stories high. Besides these there will be an engine and boiler house, retort rooms, pea husking and pickle tank rooms, besides the necessary warehouses and sheds.

The plant will be the best one of its kind in the state of Wisconsin and second to none in the United States. The promoters have been at Helms' seed store for the past three days and have met a large number of farmers, many of whom have made contracts, and many more have taken copies of the contract home with them to look into the matter more thoroughly before signing them. In other parts of the state the farmer receives an average of \$200 an acre for cucumbers; peas, \$40; corn, \$25 to \$30; cabbage, \$80. At these prices it is claimed that the farmers can make a neat profit from off the productions.

It is to the interest of the merchants of the city to see the farmers that trade with them and put the matter before them in the best possible light. The gentlemen behind this concern are all reliable business men and are abundantly able to carry out any contract that they make with the farmers. Many of the farmers act as if they were afraid the contracts would not be carried out after being made. Mr. Holmenad consulted with a number of contractors in the city this afternoon in regard to the proposed plant in view of advertising for bids for the erection of the buildings.

ACTIVE INTEREST IN MEDAL CONTEST

Active interest in the annual medal contests is manifesting itself in the high schools of the state and especially of the district league with which the Janesville school is connected. Many of the contests preliminary to the league contest have already been held.

Misses Emma Paulson and Gertrude Zeininger of the high school faculty went to Milton last evening to serve as judges in the declamatory contest at the Milton High school. Prof. Cance went to Whitewater yesterday to serve in the same capacity at the high school contests in declamation and extemporaneous speaking. The work of preparation has not progressed quite so far in the Janesville school but it is under way. This week the various sections of the different classes are choosing their representatives. Contests will be held in each class and a certain number will be selected to appear as representatives of the class in the school contest. This general contest will be held the first part of next term at which time outside judges will pick the winners of the four medals which are awarded annually.

The league contests will be held later and is simply in declamation while the local contest includes declamation, oration, extemporaneous speaking and poetry.

The agent representing a large Philadelphia manufacturer, will be at our store Friday and Saturday, March 8th and 9th, with a full line of ladies' suits, taffeta and wool skirts, jackets, etc., etc. Special measurements taken and prompt deliveries. J. M. Bostwick & Sons.

W. T. Vankirk returned home last evening from his trip to Cleveland, Florida. Mrs. Vankirk accompanied him as far as Chicago and stopped off to visit her children. He reports that the entire party had a pleasant time. Arthur Hoard and family returned home on Tuesday night. F. C. Cook and wife are expected home this evening.

LOOK OVER ROUTES TO ENTER THE CITY

New Electric Railway Terminal to Be As Near the Center of City As Possible.

H. H. Clough while in the city yesterday spent a portion of his time in looking over the various routes suggested for entering the city. He is anxious to have his terminal as near the Myers house corner as possible and the most favorable route is up Main street.

Mr. Clough said that if the Janesville street railway would allow him to take up the Main street track and replace it with seventy pound rails and equip it with everything necessary to operate his cars he would furnish them power to operate their cars on the rest of the system.

He does not care for this road and further than the Myers house corner and for the use of that much he is willing to furnish the Janesville Street Railway with power enough to operate their cars on the rest of the system.

The Janesville company should they make such a deal could easily utilize their old rails in building a line from the cemetery branch to the golf grounds. This would then give them a line that from the first of May to the first of November would pay them larger returns than any other part of their system.

They could also make an arrangement with the Beloit, Delavan Lake and Janesville road to transfer passengers that would be very much to their advantage.

The question of securing a franchise in Beloit comes up this evening and will probably be decided in favor of the companies.

If Mr. Clough succeeds in getting the franchise from Beloit he will immediately ask one from Janesville and will be ready to start the work on his road when the spring sets in.

ROOSEVELT QUELLS CHEERS.

Vice President Threatens to Clear Galleries.

TALK OF WAR WITH ENGLAND.

Senator Morgan Says That if Great Britain Should Endeavor to Enforce the Clayton-Bulwer Treaty the Result Would Be War with Us.

Washington, D. C., March 7.—Again Vice President Roosevelt was the central figure of the opening proceedings of the senate. When he appeared at his desk to call the senate to order a wave of applause swept over the thronged galleries. He evidently was impatient at the demonstration, and, tapping his desk with the gavel, warned the spectators that a repetition of the applause would result in an order to clear the galleries. After a brief debate, the amendment to the rules of the senate, placing a limit upon the debate, offered yesterday by Senator Platt (Conn.), was referred to the committee on rules. The debate developed the fact that no intention exists to urge its discussion at the present session. Mr. Morgan (Ala.), who yesterday offered a resolution declaring the abrogation of the Clayton-Bulwer treaty between the United States and Great Britain, addressed the senate for nearly two hours upon his proposition. He declared that if Great Britain should endeavor to enforce the terms of the treaty the effort would result in a war in which the great empire, which had controlled for scores of years the commerce of the world, would be swept from power and her king would be left with only sovereignty over his own island. He challenged any senator to point to a single proposition which Great Britain had made for such a modification of the Clayton-Bulwer treaty as would admit of the construction of the Nicaragua Canal.

"There cannot be anything more precious today to Great Britain," said Mr. Morgan, "than to prevent the construction of the Nicaragua Canal. If Great Britain by her 'golden silence' can prevent that her profits will continue and the longer she can do that the greater will be her profits on the Suez Canal." Mr. Morgan said he did not boast of the power of the United States in money, men, or valor, but he was thoroughly conscious of them, and gloried in that consciousness, because he knew when the supreme moment should come and any power in the world should undertake to bridge the United States by placing such restraints upon her sovereignty as were contained in the Clayton-Bulwer treaty the American people would resist to the bitter end. "And that resistance," he exclaimed, "will mean the wiping out of any power on earth that undertakes the job."

NEW POSITION FOR CHANDLER.

New Hampshire Man Named for President of Spanish Claims Commission.

Washington, D. C., March 7.—Ex-Senator William E. Chandler of New Hampshire has been selected to be President of the Spanish Claims commission. The President has sent the following navy nominations to the senate:

Captain A. S. Crowninshield, to be Chief of the Bureau of Navigation, with rank of Rear Admiral.

Commanders to be Captains—Chapman C. Todd and Robert M. Berry.

Lieutenant Commanders to be Commanders—Daniel D. V. Stuart and Charles A. Adams.

Lieutenants to be Lieutenant Commanders—William R. Rush, Harry S. Knapp and William T. Rodgers.

Lieutenants (junior grade) to be Lieutenants—W. V. N. Powelson and William S. Montgomery.

Strike of Paperhangers Over.

Pittsburg, Pa., March 7.—The paperhangers' strike, inaugurated last Monday, is practically over, seventeen firms out of twenty-two having signed the scale.

Shiloh's Consumption Cure

cures coughs and colds at once. We don't mean that it relieves you for a little while—it cures. It has been doing this for half a century. It has saved hundreds of thousands of lives. It will save yours if you give it a chance.

"I have received so much benefit from it, that I always recommend Shiloh's for coughs, throat, bronchitis and lung trouble." CHAS. VANDERKAR, Waterford, N. Y.

Shiloh's Consumption Cure is sold by all druggists at 25c, 50c, \$1.00 a bottle. A printed guarantee goes with every bottle. If you are not satisfied go to your druggist and get your money back.

NEW CABINET FOR SPAIN.

Headed by Sagasta and Includes Weyler and Vergara.

Madrid, March 7.—The new Spanish cabinet is constituted as follows: Premier, Sagasta; minister of foreign affairs, Senor Almodovar; minister of finance, Senor Urzazul; minister of war, General Weyler; minister of the interior, Senor Morot; minister of marine, Duke of Veragua; minister of public works, Senor Villameva; minister of public instruction, Senor Romanones. The portfolio of minister of justice has not yet been allotted.

General Weyler announces that he will decide to-morrow to raise the state of siege as soon as a government is constituted to restore the constitutional guarantees.

Senor Sagasta proposes the dissolution of the chambers, that elections shall take place in May and that parliament shall meet in June.

El Heraldo says the Carlists have arms and ammunition concealed in the Province of Gerona, with the object of creating a fresh outbreak next summer.

Pingree Sees Chamberlain.

London, March 7.—After an hour's interview with Joseph Chamberlain, ex-Gov. Pingree of Michigan, who had met the British colonial secretary through Mr. Choate, United States ambassador in London, said to the correspondent this morning: "Mr. Chamberlain thinks the South African war will be over in a short time. He told me he believed that by the time I reached Cape Town I should find opportunities for business rapidly opening up. He said all Englishmen would be glad to know that Americans are going to South Africa to aid in the commercial reconstruction of the country. The colonial secretary suggested that I should see Cecil Rhodes upon reaching my destination, remarking that he 'would fix me up all right.'"

Death of Dr. Bright.

Oxford, March 7.—The Rev. William Bright, D. D., regius professor or ecclesiastical history and canon of Christ church, Oxford, since 1868, died here to-day.

Dr. Bright was born in Doncaster in 1824, was educated at Rugby and University college, Oxford; was for some time theological tutor in the episcopalian college at Glen Almond, Scotland, and proctor for the chapter in convocation. Dr. Bright was an author of some note in ecclesiastical circles. He was also a hymnologist. His various works on church history attained a considerable degree of popularity and his translations of the early fathers attracted the attention of scholars.

Depends on Mother's Diet.

Vienna, March 7.—A well-known Vienna professor has just issued a text book on the subject of the arbitrary determination of sex, in which he declares that continued experiments have resulted in the scientific proof of the correctness of his former theory that the proportion of male and female births is exclusively due to the dietary of mothers. He contends that the success of his experiments in numerous recent cases shows that the course of diet effective in producing male births consists in a preponderance of nitrogenous elements, avoiding farinaceous foods and sugar.

Women May Hold Positions.

Stockholm, March 7.—The storthing to-day passed a law legalizing the employment of women in all public offices.

Invents an Air Torpedo.

Washington, D. C., March 7.—A Swedish army officer has patented an air torpedo of a construction heretofore unknown, and received a government subsidy for exploiting it, according to a communication to the state department from Consul-General Gunther at Frankfurt, Germany. According to the patent specifications, the motion of the projectile is caused exclusively by a force which is developed in a torpedo from ignition of a gas generated from slowly burning material. At the trials made so far the torpedoes are reported to have traversed a distance of 16,000 feet.

Miners Threaten General Strike.

Springfield, Ill., March 7.—The United Mine Workers have served notice on the coal operators of Illinois that unless the operators grant the demands of the Williamson county miners for an increase of three cents per ton in the mining scale the miners of the entire state will be called out on strike.

DOINGS OF THE LAW MAKERS.

ILLINOIS.

Wednesday, March 6.

The sub-committee of the house appropriations committee appointed to visit the Bartonville Insane Asylum recommends a reduction of a trifle over \$50,000 in the amount asked for this institution. The original amount asked for in the two bills was \$994,674.92. The committee recommends \$940,586.36. The item of \$317,000 for new buildings and furniture and the purchase of land is eliminated altogether. The house committee on appropriations made a reduction of \$83,500 in the amount asked by the Asylum for Feeble-Minded Children at Lincoln. The house committee on judicial department and practice reported favorably upon Mr. McCormick's bill amending the law in regard to wills by providing that charitable bequests shall be made void unless the will by which they are made is executed at least thirty days prior to the death of the testator.

Names R. S. McCormick.

Washington, D. C., March 7.—The president sent to the senate today the nomination of Robert S. McCormick of Chicago to be minister to Austria.

Mr. McCormick has been living with his family in Washington for several months. He is a man of means and culture and has traveled extensively. He is a noted bibliophile, having visited every famous collection in Europe and America. His own library is a valuable one. He is a brother-in-law of R. W. Patterson, editor of the Chicago Tribune.

A Good Cough Medicine for Children.

"I have no hesitancy in recommending Chamberlain's Cough Remedy," says F. P. Moran, a well-known and popular baker, of Petersburg, Va. "We have given it to our children when troubled with bad coughs, also whooping cough and it was always given perfect satisfaction. It was recommended to me by a druggist as the best cough medicine for children as it contained no opium or other harmful drug. Sold by People's drug store and King's pharmacy."

TO CURE THE GRIP.

Advice of a Famous Physician.

First and foremost, rest. Take care of yourself. Your already weakened nerves want rest, and must have it. If the attack is severe go to bed and remain there. More fatalities result from neglect of this precaution than from any other cause. Eat sparingly. Your digestive organs are in no condition to take care of the large quantities of food. Drink plenty of pure cold water. It stays the fever, stimulates the kidneys to action and opens up the pores of the skin. Keep the bowels open with Dr. Miles' Nerve and Liver Pills. Take three doses of Dr. Miles' Nerve per day, and if you cannot sleep take an extra dose at bed time. To overcome the fever and to overcome the peculiar aches and pains of the grip, use Dr. Miles' Pain Pills. They act quickly and effectually, and no bad effects result from their use. These remedies have been thoroughly tested more than a million times, and their efficiency is thoroughly established. They never fail to give relief.

Dr. Miles' Remedies can be found at any drug store, and they are sold on a positive guarantee that the first bottle or package benefits or money refunded.

"Grip made me very weak and nervous with tightness of chest and headache. Dr. Miles' Pain Pills and Nerve gave me quick relief."—Mrs. Clara Butler, W. Wheeling, Ohio.

"My stomach was affected by grip and I could eat nothing but crackers and milk. I began taking Dr. Miles' Nerve and Pain Pills and the trouble disappeared."—Mrs. J. Lindsey, Montrose, Minn.

"After suffering for two months from a severe attack of grip I found quick relief and a lasting cure by using Dr. Miles' Nerve, Pain Pills and Heart Cure."—Harry Abbott, Cincinnati, Ohio.

For sale by J. P. Baker, Janesville.

"I was given up to die from heart and nervous troubles caused by grip. Six bottles each of Dr. Miles' Heart Cure and Nerve cured me."—Mrs. John Woleit, Jefferson, Wis.
